

Send us Your Comments About the 36-Month Limit

The disenrollment of subscribers who are enrolled in the program for 36 continuous months is a temporary process. These subscribers are viewed as MRMIP Graduates. MRMIP Graduates have the opportunity to enroll into guaranteed coverage that health plans are required to offer in the individual insurance market. The MRMIP was restructured to reduce the waiting list of applicants for MRMIP and to allow more individuals to be served with the limited funding. This process was originally scheduled to end on September 1, 2007. However, a recent law (Senate Bill 1702) extends this process until December 31, 2007.

If you are a subscriber expecting to graduate from the MRMIP between now and September 30, 2007, you will be disenrolled from the program. After September 30, 2007, subscribers will no longer be disenrolled from the MRMIP even if they have been enrolled in the program for 36 continuous months. This is because subscribers must be given the opportunity to apply for guarantee coverage within 63 days after being disenrolled from the MRMIP.

Your comments and concerns about the 36-month limit are important to us. We encourage you to express your ideas about this process. Your comments will assist us with future policy making decisions. Although we will not directly respond back to you, all comments will be read and given careful consideration. Please continue to check our website for periodic program updates.
